

New User Registrations

Written by Administrator

Monday, 16 May 2011 08:11 - Last Updated Monday, 16 May 2011 08:24

We are pretty sure that we're having issues with our spam blocking software. When we have it switched off we become inundated with bogus users and automated bot sign-ups - this is bad. However, it looks like when we have it all switched on it may be blocking legitimate new users from registering on our school dinner web site.

If this is the case with you - you've tried to create an account but it doesn't appear to have worked - then please drop us an [email](#) so we can both get an idea of what's going on, and also get you signed up from our end. We don't want you missing or us missing out on your school dinner recipes!
